I'm Moving Forward

Our Moving Forward program is designed for those striving to restore abilities lost due to stroke, cardiovascular difficulties, orthopedic surgery and other debilitating conditions. Programs vary in frequency and intensity and include physical, occupational and speech/language therapies. Our goal is to return our participants home safely with the skills they need to continue life on their own terms.

I'm Thomas Brown, and I'm *Moving Forward.*

Due to experiencing decreased strength and endurance I was unable to do the activities I enjoyed like playing the trumpet. Thanks to Glenbrook Rehabilitation and their physical and occupational therapy team I am back to playing music every day and loving it!
