Catherine Clendenen
Laundry Aide/Housekeeping

Coventry Meadows

Cathy has been with Coventry Meadows for over seven years in the laundry department. She also is cross-trained in housekeeping and is the back up for the supervisor when he is not here.

She is an integral member of the team. She has a wonderful personality and rapport with the residents. She is always going the extra mile to get residents coffee if they want it or visit with them during her break times or off hours.

She will speak with families directly about any concerns with clothing and help them look for missing items. Cathy will hunt through every closet in the facility until she finds it.

She always answers call lights and gets nursing staff involved if she isn't able to help the resident herself.

Families and residents feel a special connection with Cathy. We are lucky to have her on our team.
