## **American Village Earns Deficiency-Free Score In State's New Stringent Survey Process**

**Indianapolis, IN** — American Senior Communities announced today that American Village has become the first and only nursing facility in the state to receive a deficiency-free survey by the Indiana State Department of Health using tough new federal criteria.

American Village, 2026 East 54<sup>th</sup> Street, has typically received good scores in previous inspections. However, under the state's new survey system a deficiency-free finding is a significant achievement.

The new federally mandated Quality Indicator Survey, initiated in January, is being implemented gradually across the U.S. About half of the states now use it.

Dan Benson, COO of American Senior Communities said, "The Indiana State Department of Health is rigid in its standards. Surveyors go through the facility with a fine-tooth comb. Receiving a perfect score from surveyors really means something and is what we constantly strive to achieve. The thanks really go to the amazing staff and their strong focus on caring for the individual. Without the level of dedication they show every day, this wouldn't be possible."

American Village is a full-continuum campus offering a wide variety of premiere senior living options including: Garden Homes, Independent and Assisted Living Apartments, New Energy Wellness, Moving Forward Rehabilitation and Auguste's Cottage Memory Care. Skilled nursing care, long-term care, hospice and respite services are also available.

Indiana owned and operated, American Senior Communities is proud to be the largest provider of retirement living and senior healthcare in Indiana, serving fellow Hoosiers for over a decade.
