Rosegate Assisted Living Community Receives Top Rating by Indiana State Board of Health

INDIANAPOLIS — Rosegate Assisted Living, one of more than 60 communities operated by American Senior Communities, has earned the highest rating possible for their quality of care and the excellent condition of the assisted living community.

Rosegate's deficiency-free score is the best score a licensed residential facility can receive from the Indiana State Board of Health and it is a distinction achieved by a low percentage of communities in Indiana.

The ISDH inspects licensed residential facilities to assess compliance with state standards covering adequacy of staffing, quality of care and cleanliness of facilities. The state rating is evidence of the company's commitment to residents, said ASC officials.

"The Indiana State Department of Health is rigid in its standards and does an extensive review," said Dan Benson, COO of American Senior Communities. "Receiving a perfect score is what we constantly strive to achieve. We appreciate the amazing staff and their strong commitment to serve each resident with quality care and excellence. Without that level of dedication, this wouldn't be possible."

Rosegate, 7525 Rosegate Drive, provides a continuum of living options and services at its campus, which also includes a Senior Health and Memory Care facility.
