Rosewalk Receives Top Rating by Indiana State Department of Health

Rosewalk has earned a deficiency-free inspection rating because of the superior quality of care provided to residents of the assisted living community. It is the best score a licensed residential facility can receive from the Indiana State Department of Health.

The ISDH inspects licensed healthcare facilities to assess compliance with state standards of care, such as adequacy of staffing, quality of care and cleanliness of facilities. A low percentage of facilities in Indiana achieve a deficiency-free rating.

Located at 1301 N. Ritter Ave., Rosewalk has received good scores in previous inspections, but this deficiency-free score is the result of constant improvement at the community and the commitment to excellence, said company officials.

“The Indiana State Department of Health is rigid in its standards and does an extensive review,” said Dan Benson, COO of American Senior Communities, which operates Rosewalk. “Receiving a perfect score is what we constantly strive to achieve. We appreciate the amazing staff and their strong commitment to serve each resident with quality care and excellence. Without that level of dedication, this wouldn’t be possible.”

Rosewalk, one of 62 communities statewide operated by American Senior Communities, provides a continuum of living options and services, including Assisted Living, Moving Forward Rehabilitation, Skilled Nursing Care, Long Term Care, Hospice and Respite. Its Auguste’s Cottage Memory Care Center serves those with Alzheimer’s disease or related dementias.
