Coventry Meadows Assisted Living Earns Deficiency Free Score in Inspection by Indiana State Department of Health

Fort Wayne, Indiana — Coventry Meadows Assisted Living, operated by American Senior Communities, the largest provider of Senior Rehabilitation and Memory Care in Indiana, was found to have no deficiencies during a recent inspection. A deficiency free score is the best score a licensed residential facility can receive from the Indiana State Board of Health and is a distinction achieved by a low percentage of facilities in the state.

Located at 7833 West Jefferson Boulevard in Fort Wayne, Coventry Meadows Assisted Living has received very good scores in previous inspections, but this deficiency-free score reflects the focus on constant improvement, said Coventry Meadows officials. The ISDH inspects (surveys) licensed health care facilities to assess compliance with state standards of care, such as adequacy of staffing, quality of care and cleanliness of facilities.

“The Indiana State Department of Health is rigid in its standards and does an extensive review,” said Dan Benson, COO of American Senior Communities. “Receiving a perfect score is what we constantly strive to achieve. We appreciate the amazing staff and their strong commitment to serve each resident with quality care and excellence. Without that level of dedication, this wouldn’t be possible.”

Coventry Meadows offers Garden Homes, Assisted Living Apartments, New Energy Wellness and Moving Forward Rehabilitation, designed for those striving to restore abilities lost due to debilitating conditions. The community also offers Skilled Nursing Care, Long Term Care, Hospice and Respite. Its Auguste’s Cottage Memory Care Center serves people with Alzheimer’s disease or related dementias.

Coventry Meadows is one of 57 communities statewide owned and operated by American Senior Communities. For more information about Coventry Meadows, call (260) 432-4848, or visit the website at www.AmericanSrCommunities.com\CM.
