

Look who's talking about **Community**

NURSING & REHABILITATION

"They had bingo, went to Pacers games and frequently had musicians come in to play for all the residents. Those are things we would not have been able to have at home."

- Jim at Community Nursing and Rehabilitation -

Jim Russell woke up one morning last December to find his wife on the floor unresponsive. She was rushed to Community East Hospital with bleeding from the brain. Mr. Russell had to make a decision to send her to a rehabilitation facility. He chose **Community Nursing and Rehabilitation**. Other family members had been there in the past and Mr. Russell believed they always did a good job. "I'm happy to say they did a great job with my wife," he said.

But the story doesn't end there. While his wife was at **Community Nursing and Rehabilitation**, he also became ill with an infection in his lower back that required surgery. He also needed rehabilitation and selected **Community Nursing and Rehabilitation**, which is located across the street from the hospital at 5600 East 16th Street. "They were nice enough to get me and my wife in a room together, which made a world of difference in our recovery. We've been married 24 years and it would have been hard to be apart from her," he said.

"While at **Community Nursing and Rehabilitation**, we received excellent care from very compassionate nurses and aides. The activities were also a big part of our time there," he said.

*"Where caring people
make the difference!"*

"They had bingo, went to Pacers games and frequently had musicians come in to play for all the residents. Those are things we would not have been able to have at home."

Executive Director Dan Kern wanted the couple to be happy. "He even got me a special cable box for my room that would get the same channels I had at home on my own TV," said Mr. Russell. "That was a really big deal for me because I love watching all my favorite shows."

Mr. Russell said he is very grateful. "I wanted to take a moment to thank all the staff at both Community East Hospital and especially at **Community Nursing and Rehabilitation**, for the wonderful care they provided for my wife and me.

"We couldn't have asked for a better place for our rehabilitation. Thank You!"
