Stonebrooke Rehabilitation Center Earns Deficiency-Free Rating

NEW CASTLE, IN — Stonebrooke Rehabilitation Center was found to have no deficiencies during an annual inspection by the Indiana State Department of Health.

The health department inspects annually to assess compliance with state standards of care, such as adequacy of staffing, quality of care and cleanliness of facilities.

A deficiency-free score is the best score a facility can receive and is a distinction achieved by a low percentage of facilities in the state.

Located at 990 N. 16th Street in New Castle, the community is operated by American Senior Communities.

ASC Chief Operating Officer Dan Benson said Stonebrooke Rehabilitation Center's staff operates by the company's core values.

(more)

“Compassion, Attentiveness, Relationships and Excellence: these words not only form an acronym spelling out CARE, they are guiding principles that lead us every day as we serve a very special generation,” said Benson.

“We are so proud of the staff for living out these values in an exceptional way. We congratulate the staff of Stonebrooke. Without the staff’s high level of dedication and commitment, these distinctions would not be possible.”

Stonebrooke provides Moving Forward Rehabilitation, Auguste’s Cottage Memory Care, Hospice, Respite, Skilled and Long-Term Care.
