

I'm Moving Forward

I'm Terry, and I'm *Moving Forward*.

"Coventry Meadows is my forever home," says Terry Krinn, the first resident at Coventry Meadows.

Terry Krinn had a stroke back in 2004 and spent a month in the hospital trying to rebuild strength to start rehabilitation. He was discharged from the hospital to an American Senior Communities facility on the Northeast side of Fort Wayne to start his rehabilitation journey. Sue, his wife and caregiver of 48 years, who came to visit everyday still maintained a residence in southwest Fort Wayne and was tickled to see a sign for a new American Senior Community facility, Coventry Meadows, which was being built.

She was so excited she called the phone number on the sign and informed the receptionist that she wanted Terry to be on the waiting list. Sue wanted him as a resident when Coventry Meadows opened their doors.

In the summer of 2006 Terry became the first resident at Coventry Meadows. He continued to receive therapy with the exceptional team at Coventry Meadows and has maintained an excellent quality of life. He enjoys exciting activities for entertainment and loves to sit outside on sunny days working on his tan. Sue likes to share a memory of the time Coventry Meadows celebrated Valentine's Day by taking Terry and his wife to a nice restaurant for a romantic dinner for two complete with rose petals on the table.

Terry still enjoys daily visits from Sue who now hosts a Bible study called S.O.A.P for all the residents at Coventry Meadows. Both Terry and Sue continue to build relationships with other residents and their family members at Coventry Meadows.

Our Moving Forward program is designed for those striving to restore abilities lost due to stroke, cardiovascular difficulties, orthopedic surgery and other debilitating conditions. Programs vary in frequency and intensity and include physical, occupational and speech/language therapies. Our goal is to return our participants home safely with the skills they need to continue life on their own terms.
