

*Look who's talking
about
Moving Forward
at West Bend
Nursing & Rehabilitation*

Life can be unpredictable with valleys and hills that we don't always plan for. Sometimes we need a little help getting through those ups and downs that life can throw our way. Patsy Campbell believes **West Bend Nursing and Rehabilitation** was the help she needed both emotionally and physically to get her through a challenge in her life.

Patsy's passion.....shopping! She loves to shop for bargains

and treasures at garage sales. Unfortunately, at the beginning of garage sale season this past summer, she began experiencing pain in her hip and was having difficulty walking. Her doctor recommended hip surgery so at 61 years of age; Patsy underwent hip surgery in Michigan City, Indiana.

Patsy came to **West Bend Nursing and Rehabilitation** to gain strength; however, she states she gained much more than that. She states West Bend was her "saving grace". Patsy credits the staff for immediately greeting her upon her arrival and making her feel like she was important throughout her stay. Patsy enjoyed socializing with other rehab residents in the dining room for meals and felt that the therapy staff personalized her needs and made her ready to go home.

*"When I left, I knew I had the tools provided by **West Bend** to be successful at home. The equipment used in therapy was great and the people were awesome! I enjoyed participating in the variety of activities and especially enjoyed the computer that was available to play my games. The atmosphere at **West Bend** was warm and inviting and I would recommend their rehabilitation program to anyone!"*

Today, Patsy is back home and is excited to be moving into a new home that will have a pond for her grandchildren to fish in. Patsy is back to doing her own housekeeping, cooking, driving and of course, she is back to her passion... shopping!
