Allisonville Meadows Assisted Living Earns Deficiency-Free Score from Indiana State Department of Health

FISHERS, Ind. — Allisonville Meadows Assisted Living was found to have no deficiencies again during an inspection by the Indiana State Board of Health.

Opened by American Senior Communities on Aug. 1, 2013 at 10410 Allisonville Road in Fishers, this is the second perfect survey earned by Allisonville Meadows. The ISDH inspects licensed facilities to assess compliance with state standards of care, such as adequacy of staffing, quality of care and cleanliness of facilities.

A deficiency-free score is the best score an assisted living facility can receive and is a distinction achieved by a low percentage of facilities in the state.

Compassion, Attentiveness, Relationships and Excellence are the core values for American Senior Communities. These words not only form an acronym for C.A.R.E, they are guiding principles that lead us every day as we serve a very special generation.

“We are so proud of the staff for living out these values in an exceptional way. We congratulate the staff at Allisonville Meadows Assisted Living for their perfect survey from the Indiana State Department of Health. Without the staff’s high level of dedication and commitment, a deficiency-free survey would not be possible,” said Ann Jee Kirstien, General Manager.

Allisonville Meadows Assisted Living also offers memory care. For more information about Allisonville Meadows Assisted Living, call (317) 436-6400, or visit the website at www.ascseniorcare.com/amal.
