I'm Stronger Because of American Senior Communities!

Bob Messersmith came to University Nursing Center because he was in need of rehabilitation due to a stroke. When Bob arrived he was unable to walk, eat a regular diet and had difficulty speaking. Bob was determined that he would return to his life back home.

"Everything and everyone at University Nursing Center is so fantastic. The staff feels like family to me. The therapists all have great attitudes and they made me work hard. They were very encouraging to me and the facility was very nice. University Nursing Center helped me get stronger so I am able to get back home to my wife Carolyn in time for our anniversary and I can get back to church. I love all of the people who work there and everything was very nice."

***-Bob Messersmith,** Former Resident*

Our Moving Forward program is designed for those striving to restore abilities lost due to stroke, cardiovascular difficulties, orthopedic surgery and other debilitating conditions. Programs vary in frequency and intensity and include physical, occupational and speech/language therapies.

Our goal is to return our participants home safely with the skills they need to continue life on their own terms.
