Elkhart Rehabilitation Center Earns Deficiency-Free Score

ELKHART, Ind. — Elkhart Rehabilitation Center was found to have no deficiencies during an inspection by the Indiana State Board of Health.

Operated by American Senior Communities (ASC) at 2600 Morehouse Avenue in Elkhart, the community is a favorite of seniors and others who need rehabilitation and care. The health department inspects such communities to assess compliance with state standards of care, such as adequacy of staffing, quality of care and cleanliness of facilities.

A deficiency-free score is the best score a senior health facility can receive and is a distinction achieved by a low percentage of facilities in the state.

Compassion, Attentiveness, Relationships and Excellence are the core values for American Senior Communities. These words not only form an acronym for C.A.R.E, they are guiding principles that lead us every day as we serve a very special generation, says executives of American Senior Communities.

(more)

“We are so proud of the staff for living out these values in an exceptional way. We congratulate the staff at Elkhart Rehabilitation Center for the perfect survey from the Indiana State Department of Health. Without the staff's high level of dedication and commitment, a deficiency-free survey would not be possible,” said David Alexander, ASC’s vice president of operations.

Elkhart Rehabilitation Center offers Moving Forward Rehabilitation, Hospice, Respite, Skilled and Long-Term Care.
