

# I'm Moving Forward.

**Washington**  
HEALTHCARE CENTER

Our Moving Forward program is designed for those striving to restore abilities lost due to stroke, cardiovascular difficulties, orthopedic surgery and other debilitating conditions. Programs vary in frequency and intensity and include physical, occupational and speech/language therapies. Our goal is to return our participants home safely with the skills they need to continue life on their own terms.

## "I'm Floyd, and I'm Moving Forward."

After 13 days at Community East Hospital, I was admitted to Washington Healthcare Center (WHC) to begin my rehabilitation journey. My experience has been great here dealing with the staff from top to bottom. They all knew how sick I was and professionalism was always first! The staff listened to my concerns and made sure that I attended all of my scheduled appointments.

While on my rehabilitation journey, I learned that my insurance would expire shortly after my month stay. In spite of having the best help from the business office manager, Debbie, I had to prepare for discharge. Before I ended rehabilitation, I went to one last appointment. It was there, I was told that I would be readmitted to the hospital for a second surgery.

While recovering at the hospital, I received word that I would be returning back to Washington Healthcare to finish what I started. Wow! That was great news for me. WHC was beginning to feel like home.

I readmitted to WHC on October 6, 2016 and within 20 days I successfully completed my therapy. I am stronger and feel great. I have graduated from a walker to a cane. My last week has been nice and I have enjoyed all of the staff. If I ever need assistance I will return 'home.'

### *A Letter to the Executive Director,*

Tim, you seem to be Mr. Everything. I once saw you in the kitchen, seems like all day and part of the night, helping a staff member fix something. I see you don't mind getting dirty to get things done right. YOU GO TIM!"
