Westview Nursing and Rehabilitation Center Receives Deficiency-Free State Inspection

BEDFORD, IN — Westview Nursing and Rehabilitation Center was found to have no deficiencies during a recent inspection by the Indiana State Department of Health.

Operated by American Senior Communities at 1510 Clinic Dr. in Bedford, the community serves seniors and others who need rehabilitation, memory care and skilled nursing. The health department inspects such communities to assess compliance with state standards of care, such as adequacy of staffing, quality of care and cleanliness of facility.

A deficiency-free score is the best score a senior health facility can receive and is a distinction achieved by a low percentage of senior health facilities.

Compassion, attentiveness, relationships and excellence are the core values for Westview Nursing and Rehabilitation Center and all American Senior Communities locations.

“We are so proud of the staff for living out these values in an exceptional way,” said David Alexander, ASC’s senior vice president of operations. “Without the staff’s high level of dedication and commitment, a deficiency-free survey would not be possible.”

Westview Nursing and Rehabilitation Center offers Moving Forward Rehabilitation, Auguste’s Cottage Memory Care, Hospice, Respite, Skilled and Long-Term Care.
